Professional Digest

Technically sound professional with more than **+7.5 Year** of experience in Project Management and Pre sale work, I am able to handle the Project Monitoring & Business Functional. Currently working in **Maim Software Consulting Pvt. Ltd.** as a **“Lead Project management Consultant”**. Good communication, analytical and problem-solving skills with the distinction of receiving appraisals and recognition for excellent performance. Have made vital contributions to the swift ramp up of projects with competent cross-functional skills and on time execution. Sound knowledge of Oracle **Primavera P6, Unifier, Gateway, Oracle Aconex, Primavera Cloud & Primavera Team Member.**

Areas of Exposure

Primavera P6/ Primavera Unifier/Oracle Aconex/Primavera BI Analytics Technical & Functional Expertise

- ✧ Hand of experience in Oracle Aconex to manage the document management system
- ✧ Create the different type of folder for different type of department to access the document on a centralized platform.
- ✧ Preparing the Insight view for user to check how much Drawing is approved, In- Progress Or pending,
- ✧ Communication Collaboration management enable for user to communicate among yourself if any task is pending or not proved.
- ✧ 3D Model view enables where user can check the drawing clash detection and any discrepancy in drawing, easy to markup.
- ✧ Workflow mechanism for user, to proceed the document or task in workflow manner and get the notification after completing each work flow step.
- ✧ Submittal, approval and transmittal mechanism using in engineering management system to see the folder wise structured and revision drawings.
- ✧ Classify the drawing nature and revision of the drawing of each uploaded drawing
- ✧ Setting up an organization preference and privileged.
- ✧ Upload the revised drawing approval.
- ✧ Competent and versatile professional offering nearly two years of exposure across comprehensive business Functional & techno skill set for handling Primavera projects Implementation and Supports including Project Scheduling, Monitoring, Controlling, Resource Levelling, Tracking, Integration & Business type's project report from OBIEE Publisher, performance % completion on Primavera P6 EPPM, Primavera Unifier & MS Project and Preparing Tender schedules for Biddings
- ✧ Holds expertise & proficiency in possessing knowledge of Primavera P6 Planning software.
- ✧ To develop, control and manage project plans and resource from project initiation to closure with the application of project planning, cost controlling and management professional knowledge's skill and techniques to control the execution of project activities to attain project objectives and management plan.
- ✧ Sound Knowledge of Oracle BI Publisher for Development of Custom Reports
- ✧ Able to give all kind of project management solution to the customer with a good experience in Customer's Domain.
- ✧ Can give end user training to multiple users.
- ✧ Able to implement the Project Management methodology to the customer

- ☞ To prepare the EPS, OBS & Projects after discussing with project and site people.
- ☞ Monitoring project status during the course of periodic project review meetings as per the technical details.
- ☞ Preparing schedule for better monitoring of the project after listing out details and constraints during the project with the help of Project management tools like **Primavera P6 EPPM**.
- ☞ To discuss with the client about the schedule and the constraints of the project.
- ☞ To Design a BP for client as per best industry practice followed
- ☞ To design the BP query to get the data populated in single source of Dashboard
- ☞ To create the BP automatically with the help of auto creation of parallel BP.
- ☞ To maintain the Resource record with the help of resource and Time sheet
- ☞ To maintain the task with the help of P6 Schedule task in Unifier
- ☞ Data synchronization with the help of REST API.
- ☞ To give time schedule to each department for achieving the planned target.
- ☞ To have an overall control of the availability of the materials.
- ☞ Monitor the progress in daily base and to update the same.
- ☞ Technical & Functional expertise in Primavera application
- ☞ Integration solution specialist either any 3rd party tool (Java development. SOAP middleware, API, PIF, Primavera gateway, EPC connector).
- ☞ Create best roadmap for customer where it's fitted with existing application.
- ☞ Data migration from one application to other.
- ☞ Support specialist helps the customer to understand old data to real data.
- ☞ Training to Customer Onsite/Offsite

Work Experience

Since September'2018 with Maim Software Consulting Pvt. Ltd.

Project Handled

Pradeep Phosphate Limited (Goa Unit)

Project Name: - Ammonia Plant shutdown and Maintenance of Urea and Utility Project

Scope: - Preparing the Planning and Monitoring the Schedule, Daily progress reports, Deep analysis of critical activity with the help of CCPM and PERT Techniques.

Responsibilities: -

- ☞ Prepare detailed **scope of work** with Maintenance, Mechanical, E&I, and Process teams.,
- ☞ Conduct site surveys and identify access requirements (scaffolding, crane, etc.).
- ☞ Estimate manpower, tools, materials, and spares.
- ☞ Coordinate procurement for long-lead items.
- ☞ Schedule Development using MSP, Level-1 Master Shutdown Schedule Level-2 / Level-3 Detailed Schedule.
- ☞ Defining Activity, sequencing, Logical relationships, Critical path, Milestones, Reloading the resource with planned units, Calendar Assignments of 12*7hrs and 24*7hrs.
- ☞ Preparing one master schedule to track the Maintenance and Project job easily
- ☞ Adding all type of resource to check the availability and Overallocation of resource.
- ☞ Prepare a resource plan skills wise and deployed shift wise.
- ☞ Update and monitor the schedule.
- ☞ Critical path analysis.

- ☞ Daily report preparation
- ☞ Preparing the S-curve with the help of resource and Budget
- ☞ Look ahead plan analysis
- ☞ Meeting with clients and Contractor how to reduce the risk and Challenges in the project
- ☞ Issue register creation and assign with activity
- ☞ Risk Register preparation and assign with activity.
- ☞ Line wise and drawing wise, Prepare the plan to deep dive analysis on welding joints and Piping erection
- ☞ Identify high-risk activities and float constraints.
- ☞ Actual vs Planned progress report
- ☞ Budgeted cost vs Actual cost reporting.
- ☞ Mom (Minutes of meetings) preparing.
- ☞ Highlight the delay analysis activity.
- ☞ Send the report to top management for review and taking required action on it.
- ☞ Track punch list clearance.
- ☞ Lesson learned Report.

Bliss Anand Pvt Ltd (Skid Project)

Duration: - August 2025 to Oct 2025

Scope: - Primavera P6 Schedule Preparatory Document End-To-End Process Starting from Project Creation till Project Reporting.

Responsibilities: -

- ☞ Quick refresher P6 EPPM Overview.
- ☞ Understand the Existing Process and Configuration.
- ☞ Understanding Scheduling & Reporting Requirement
- ☞ Provide the TO be process and System Architecture.
- ☞ Preparing Requirement Document
- ☞ Defining Global and Project Calendar
- ☞ Assigning the calendar
- ☞ Defining Project Details
- ☞ WBS Creation and Activity with duration Creation.
- ☞ Assigning relationships and Lags.
- ☞ Scheduling and Finalizing Time Planning.
- ☞ Resource Directory Creation, Resource Loading and Cost Loading.
- ☞ Baseline Finalization
- ☞ Updating Project Progress.
- ☞ Report Configuration through P6 EPPM
- ☞ Report Configuration in excel extracted through P6 EPPM
- ☞ Final Schedule Creation, Updating, Report Creation
- ☞ Process document preparation and submission

Jeddah Central Development

Duration: - June 2024 to August 2024

Scope: - Implementation of Primavera P6 EPPM and Configuration.

Responsibilities:

- ☞ Define business objectives and project goals.
- ☞ Approve scope, timelines, and deliverables

- ☞ Provide access to required systems and stakeholders.
- ☞ Provide executive oversight and strategic direction
- ☞ Resolve escalations and approve major changes
- ☞ Ensure organizational alignment and support
- ☞ Gather and analyze business requirements
- ☞ Provide best-practice recommendations
- ☞ Design EPS, OBS, calendars, codes, and workflows
- ☞ Configure P6 application as per client standards
- ☞ Support data migration and validation
- ☞ Install and configure P6 EPPM (WebLogic, DB, P6 Web)
- ☞ Manage environments (DEV, TEST, PROD)
- ☞ Configure security, users, and access roles.
- ☞ Perform system performance tuning and backups.
- ☞ Design dashboards and management reports
- ☞ Execute test cases and validate functionality.
- ☞ Identify defects and coordinate fixes.
- ☞ Participate in training sessions
- ☞ Perform UAT activities
- ☞ Use the system as per defined standards
- ☞ Post go-live support (L1/L2/L3).

Red Sea Global (Real application Clustering and Database Cluster)

Duration: - April 2024 to ...

Scope: - Upgradation and Migration of Primavera P6 EPPM & Database Clustering...

Responsibilities:

- ☞ Delivery Manager
- ☞ Preparing the High-Level Design and Low-level design Documents
- ☞ Pro-actively working with database Administrator to check the High availability and Scalability.
- ☞ Application-level Clustering.
- ☞ Data migration from the Existing prod server to new Prod server.
- ☞ Record or capture the all steps for the future reference.
- ☞ Configure the load balancer
- ☞ Using SAN storage to replicate the data and balancing the two-node data
- ☞ DNS server resolving the IP configuration like (SCAN IP, Virtual IP, Private IP and Public IP)
- ☞ Monitoring the data from the dev to prod server
- ☞ Full back up of Existing database server
- ☞ User testing of each business data,
- ☞ Total 18 database schema is migrated from exiting too new
- ☞ The number of user count is approx. more than 350 to handle the system.

DHL Construction project (Dubai)

Duration: - Jan 2024 to March 2024

Scope: - Implementation of Electronic document system with Oracle Aconex application.

Responsibilities:

- ☞ Create the Document folder and its workflow step with assigned manager.
- ☞ Approved document is saved in approval folder automatically without using manual effort.

- ☞ Enable the drawing markup feature for user and reason to reject the drawing with text comment.
- ☞ After rejecting the drawing get the notification to the responsible user with the comment.
- ☞ Create the drawing type business form for submitting or approving the drawing.
- ☞ Add the user in group wise or either separate way with restricted privileged.
- ☞ Create the Insight analytics, where user can check over all management process in single platform.
- ☞ Create the report module wise.
- ☞ Save the search at project/Organization level/Shared for visibility with the help of search technique Boolean operator, string query, File content and version history.
- ☞ Configure Field access.
- ☞ Configure issue types.
- ☞ Configure Package
- ☞ Configure Inspection Template
- ☞ Assign Field roles to users in other organizations.
- ☞ Configuring change request process Flow.
- ☞ Add mail type document
- ☞ Setup the project and workflow as per managing the project role user.
- ☞ File Comparison & Review Markup Functionality
- ☞ Configure the Workflow template
- ☞ Set the review template
- ☞ User access control to manage the role wise.
- ☞ Invite the other stakeholder user for the project.

SSH (Architecture & Engineering Consultant) Kuwait

Scope: Implementation of Oracle Primavera Cloud & Integration with Deltek System

Responsibilities:

- ☞ Create and manage project schedules with tasks, milestones, and dependencies.
- ☞ Assign resources and define timelines.
- ☞ Monitor project progress using Gantt charts, dashboards, and KPIs.
- ☞ Use Critical Path Method (CPM) to calculate the project timeline.
- ☞ Set and maintain project baselines for comparison with actual progress.
- ☞ Create and manage user accounts, roles, and permissions.
- ☞ Assign roles and responsibilities to team members.
- ☞ Monitor and optimize resource utilization.
- ☞ Monitor and update risk status regularly.
- ☞ Monitor cost performance against the budget.
- ☞ Define and manage project portfolios.
- ☞ View and update assigned tasks.
- ☞ Use portfolio-level dashboards and reports
- ☞ Define scope items and associate them with WBS elements, tasks, or deliverables.
- ☞ Displays overall health based on cost, schedule, and risk indicators.
- ☞ Configure the Portfolio Management
- ☞ Configure the Scope Management with Activity each CBS code.
- ☞ Standard Reporting with export features (PDF, Excel, or CSV) formats.
- ☞ Data Migration and Validation.
- ☞ Performance Monitoring

- ✎ Configure the Admin Privileges
- ✎ Integration with DELTEK, Using Rest API through Custom Java development.

TECOM Innovation Hub Phase 2 (Dubai)

Duration- July-2023 to Oct 2023

Scope: Implementation of Oracle Aconex and Integration with Outlook external emails

Responsibilities:

- ✎ Create the Document folder and its workflow step with assigned manager.
- ✎ Approved document is saved in approval folder automatically without using manual effort.
- ✎ Enable the drawing markup feature for user and reason to reject the drawing with text comment.
- ✎ After rejecting the drawing get the notification to the responsible user with the comment.
- ✎ Create the drawing type business form for submitting or approving the drawing.
- ✎ Add the user in group wise or either separate way with restricted privileged.
- ✎ Create the Insight analytics, where user can check overall management process in single platform.
- ✎ Create the report module wise.
- ✎ Save the search at project/Organization level/Shared for visibility with the help of search technique Boolean operator, string query, File content and version history.
- ✎ Configure Field access.
- ✎ Configure issue types.
- ✎ Configure Package
- ✎ Configure Inspection Template
- ✎ Assign Field roles to users in other organizations.
- ✎ Configuring change request process Flow.
- ✎ Add mail type document
- ✎ Setup the project and workflow as per managing the project role user.

Primavera Unifier, Primavera P6 EPPM, Primavera Team member, Oracle Time control & other third-party application Implementation and Support at GE- Business,

Duration- Jan-2022 to Dec- 2022 date.

Scope: Installing the application and configuration the data as per customer requirement and helping the new business to adopt the new technology & fresh implementation.

Responsibilities:

- ✎ Create a Shell for each Business of Different project hierarchy.
- ✎ Configured Business Processes (RFIs, Submittals, Change Orders, Payment Applications).
- ✎ Managed user profiles, roles, and access control for secure system usage.
- ✎ Implemented Document Management workflows and folder structures.
- ✎ Configure the Custom WF for each business of Different Project,
- ✎ Data Migration from development to Production
- ✎ Requirement gathering with new business or new COCO (Company owned& Company Operated)
- ✎ Understand the business and configure the data as per Business requirements
- ✎ Implementing the data from as is process to be process.
- ✎ Importing and exporting the project Like MSP file, Xer file, XML File with validating the data
- ✎ Create template the where user can easily import the data without fail
- ✎ Create the custom report as per business requirement and make as automatic triggered mail
- ✎ Detail training to the new user about the application functionalities.

- ☞ Making Work flow process for business to be work like.
- ☞ Troubleshoot the error
- ☞ Helps the user to enabling the mobile application and updating and monitoring the progress
- ☞ Monitoring the user access and project.
- ☞ Create the new resource for new user
- ☞ Assign the project to the user
- ☞ Develop the query In SQL for reporting requirement
- ☞ Integration with third party application Like: - Tableau, SAP, Time control etc.

TDC Saudi Arabia 2021-2023

Scope: - *Unifier Installing & configuration the data as per the Business Requirement, Post Implementation Support*

Responsibilities:

- ☞ Installing the Unifier and Configuration the data
- ☞ Configuration and setup all cost type Business Processes (RFB, Contract, PO, Invoice, Payment, SOV etc.) and Cost sheet as per Business requirement.
- ☞ Create and configure Project Shells for new construction projects
- ☞ Apply Shell Templates and project structures
- ☞ Setup Cost Sheets, Workflows, and Business Processes
- ☞ Create and configure Project Shells for new construction projects
- ☞ Apply Shell Templates and project structures
- ☞ Setup Cost Sheets, Workflows, and Business Processes
- ☞ Create and configure Project Shells for new construction projects
- ☞ Apply Shell Templates and project structures
- ☞ Setup Cost Sheets, Workflows, and Business Processes
- ☞ Create and configure Project Shells for new construction projects
- ☞ Apply Shell Templates and project structures
- ☞ Setup Cost Sheets, Workflows, and Business Processes
- ☞ Custom print and UDR development.
- ☞ Auto populate and Reverse auto populate method to create the record
- ☞ Schedule management for Planning and monitoring the task
- ☞ Configuration the Document Management System through Oracle Unifier.
- ☞ Unifier administration role training and access
- ☞ Create a Work flow for new Business Process.
- ☞ User Setup and Privileged access as per the user roles.

Unifier Installing & configuration the data our company Internal Server for Pre-sale and Customer Requirements.

Duration- Oct 2021 to till date

Scope: Installing the Unifier and configuration the data as per Customer requirements and pre selling purpose.

Responsibilities:

- ☞ Installing the Unifier and Configuration the data
- ☞ Configuration and setup all cost type Business Processes (RFB, Contract, PO, Invoice, Payment, SOV etc.) and Cost sheet as per Business requirement.
- ☞ Custom print and UDR development.

- ☞ Auto populate and Reverse auto populate method to create the record
- ☞ Schedule management for Planning and monitoring the task
- ☞ Configuration the Document Management System through Oracle Unifier.
- ☞ Unifier administration role training and access
- ☞ Create a Work flow for new Business Process
- ☞ Configuring Email alert for any changes or creating new record
- ☞ Creating Unifier dashboard for Visualization.
- ☞ Shell creation for different-different business.
- ☞ Design and Configuration Custom Business Process Non-Conformance Report, Submittal, Inspection Report and Transmittal through u-designer in Unifier.

Project Monitoring & Scheduling at Bharat Petroleum Corporation Limited through Detect Technologies

Duration- Sept 2021 to Oct 2021 date.

Scope: Planning & monitoring the project.

Responsibilities:

- ☞ Planning & scheduling the project.
- ☞ Monitoring the activity at every three hours
- ☞ Send the progress Report to higher level management in every three Hrs,
- ☞ Calculate the percentage of completion at duration level.
- ☞ Send the Delay Analysis report
- ☞ Send the overall delay Report
- ☞ Send the Plan Vs. Actual Report

Implementation of 5D BIM at Hindustan Zinc Limited, Udaipur

Duration- Nov 2020 to Aug 2021

Scope: The project involves Project Management Solution of the Project with the help of **Primavera P6, SAP, ARIBA, APRAJITA, DOT NET & QLIK SENCE**

Responsibilities:

- ☞ To understand the client's requirements and gives a Fitment of the same with the help of EPPM Suite.
- ☞ Assigning the users with their respective privilege to them for each EPS, to create projects for each and all the packages.
- ☞ Defining the Project template based upon the Project nature (Program).
- ☞ To provide the access to user as per their Role.
- ☞ To prepare the report format after watching the client's requirement and generating the same.
- ☞ Responsible for End user training along with the training manual.
- ☞ To give user support for any issues related to functional stuff.

Implementation of 5D BIM at NMSCEL, Mumbai

Duration- Feb 2020 to Nov 2020.

Scope: The project involves Project Management Solution of the Project with the help of **Primavera P6, SAP, Synchro and Bentley.**

Responsibilities:

- ☞ To understand the client's requirements and gives a Fitment of the same with the help of EPPM Suite.
- ☞ Assigning the users with their respective privilege to them for each EPS, to create projects for each and all the packages.
- ☞ Defining the Project template based upon the Project nature (Program).
- ☞ To provide the access to user as per their Role.
- ☞ To prepare the report format after watching the client's requirement and generating the same.
- ☞ Responsible for End user training along with the training manual.
- ☞ To give user support for any issues related to functional stuff.

Project Planning for Sterling & Wilson, Nagpur

Duration- Sep 2018 to Jan 2020

Scope: - Project Planning, Project Update in Primavera.

Responsibilities:

- ☞ Undertaking pre-planning and defining complete scope for the assignment to be completed on site and preparing the construction schedule (Man-hour calculation, S-Curve Preparation) of the project as per the client requirements in Primavera.
- ☞ After preparing the Overall schedule in Project Management tool in Primavera
- ☞ Preparing Baseline and follow-up with client for approval
- ☞ Allocating and distributing resources/ tasks, as per the project scope.
- ☞ To update the schedule for all the packages.
- ☞ To prepare the report format after watching the client's requirement and generating the same.
- ☞ Generate the report for all packages
- ☞ Preparation of Daily Progress Report and submit to client
- ☞ Prepare all scheduling input to Monthly Progress Report

Training Handled

Nakheel Real State Aconex hands on training to the users (Dubai)

Duration: - Nov 2023 to Dec 2023

Scope: - Aconex Training & best Industry practice to handle the document management system.

Responsibilities:

- ☞ Deliver the training to the higher management level to how to track the approved and not approved the document
- ☞ How to manage the Consultant and Contractor Submitted document
- ☞ The Best industry practice for document numbering.
- ☞ To manage the Approved, rejected, pending and delay document report
- ☞ To track the whom to pending for approval
- ☞ Best search technique to find the document in document register
- ☞ How to review the document if document is sent for approval
- ☞ How to track the record if someone has changes something in document
- ☞ How to re-Upload the document
- ☞ With the help of markup tool, How to Markup the document
- ☞ How to compare the File with Oldest version
- ☞ How to maintain the record of mail
- ☞ Mail functionality and its use

- ✎ How to create the workflow and manage
- ✎ Custom report creation
- ✎ Adding signature
- ✎ Inviting users for the project
- ✎ Search technique for mail & Workflow
- ✎ How to transmit the document
- ✎ How to export and run the report
- ✎ Configuration of Mail body receiving from Aconex to Other mail
- ✎ Best industry practice for Document title convention
- ✎ To Supersede the review document
- ✎ Creating workflow template
- ✎ Adding /Update the document
- ✎ Mobile enabling & Tracking
- ✎ To maintain the stakeholder as per the stakeholder role

Oil India Limited

Duration: - 5 days

Scope: - Primavera P6 EPPM End to end Cycle of Training

Responsibilities: -

- ✎ Understand client business processes and training objectives.
- ✎ Design role-based training curriculum (Admin, Planner, PM, Management).
- ✎ Prepare training materials, manuals, and practical exercises.
- ✎ Configure training environment and sample projects.
- ✎ Provide hands-on demonstrations and real-time practice
- ✎ Address participant queries and provide functional clarification.
- ✎ Conduct knowledge assessment and practical exercises.
- ✎ Provide post-training support for a defined period

Adani Petro chemical (Mudra Ports)

Duration: - 5 days

Scope: - Primavera P6 EPPM End to end Cycle of Training.

Responsibilities: -

- ✎ Understand client business processes and training objectives.
- ✎ Design role-based training curriculum (Admin, Planner, PM, Management).
- ✎ Prepare training materials, manuals, and practical exercises.
- ✎ Configure training environment and sample projects.
- ✎ Provide hands-on demonstrations and real-time practice
- ✎ Address participant queries and provide functional clarification.
- ✎ Conduct knowledge assessment and practical exercises.
- ✎ Provide post-training support for a defined period.

Industrial Exposure (Training)

Company: - BHARAT HEAVY ELECTRICALS LIMITED.

Duration: - 30 Days (2014)

Title: - General Awareness of Steam Turbine Manufacturing

Company: - CENTRAL INSTITUTE OF PLASTICS ENGINEERING & TECHNOLOGY
Duration: - 90 Days (2016)
Title: - "CAD Using CREO"

Company: - CENTRAL INSTITUTE OF PLASTICS ENGINEERING & TECHNOLOGY
Duration: - 60 Days (2017)
Title: - "CNC Machine (Milling/Lathe) Interfacing with Cam Software"

Education

- ✧ B. Tech (Mechanical) from **Arya College of Engineering. & I.T (R.T.U)** 2015-2018
- ✧ Diploma in Mechanical Engineering from **Yamuna Polytechnic for Engineering**, Yamuna Nagar, Haryana 2012-2015
- ✧ SSC (10th) from **S.S.K.N. Motani High School (B.S.E.B)**

Technical Skill Set

- ✧ Project Management, Scheduling and Control
- ✧ Oracle Time-Control
- ✧ Oracle Aconex
- ✧ Primavera P6 professional and EPPM
- ✧ Primavera Unifier Developer
- ✧ BI Publisher Report
- ✧ Primavera Analytics
- ✧ Primavera Cloud
- ✧ SAP MM
- ✧ SAP PS
- ✧ MS project
- ✧ CCPM & PERT
- ✧ CAD Using CREO

Personal Details

Date of Birth : - 05 June'1996
Father's Name : - Shaukat Hussain
